PREFACE

The purpose of this text is to help you, cadre and/or Professional Officer Course (POC) cadets, develop a meaningful and stimulating Leadership Laboratory (LLAB) course for your detachment. Please keep in mind the structure of the course is up to you and your Operations Flight Commander (OFC) or Operations Officer. You are required to teach all lesson objectives and track the proficiency level for each cadet using the AFROTC-approved LLAB Objectives Tracker. However, you may present these objectives throughout the academic year in any order that works for you as approved by your OFC. Furthermore, the proficiency levels defined for each objective are based on the minimum skill level required for successful completion of the AFROTC program - at the discretion of the OFC, cadets may be directed to achieve a higher proficiency level. The Detachment Commander is the waiver authority for objective completion and proficiency level requirement for individual cadets unless delegated to the OFC.

This document has changed substantially from previous versions and has been re-named as AFROTCI 36-2011 Volume 1 indicating a shift in training philosophy. Objectives are now proficiency-based or characterized as task knowledge or performance. Objectives for extended cadets have been removed. AFROTCI 36-2011, Cadet Operations, directs the conduct for extended cadets. They have completed the program and should be used to assist with Practical Military Training (PMT) and as mentors for special projects. Additionally, the objectives for esprit-de-corps were removed. Morale and team-building activities should be an inherent focus of cadet leaders and detachment staff for PMT in order to maintain a viable commissioning source. The design of the new AFROTCI 36-2011 Volume 1 and its associated objectives provides ample opportunity and flexibility for detachments to recruit, train, and commission the world’s best Air Force and Space Force Second Lieutenants.

Critiques, suggestions, and comments are welcome!

Please address any critiques, suggestions, comments or corrections through your OFC. Cadre will forward appropriate recommendations to their Regional AFROTC Curriculum Crowdsourcing Team, which will be forwarded to:

This Cadet's Guide to Leadership Laboratory Curriculum (LLAB Guidebook) is designed for the Professional Officer Course (POC) and cadre as a reference tool to successfully present LLAB events. This tool is not meant to be all inclusive; however it will serve as a guide for detachment training operations. LLAB events allow cadets to practice the knowledge and skills learned in AS classes and other Practical Military Training (PMT) events. LLAB-accomplished training occurs at three different levels. First, the General Military Course (GMC) cadets gain knowledge and have an opportunity to carry out activities using practical applications. Second, LLAB gives POC cadets an opportunity to practice their leadership skills to plan, set up, execute and provide GMCs feedback while executing LLAB. Finally, cadre provide feedback to the POCs on their leadership skills in relation to their plan, set up, execution and feedback provided to GMCs. As a POC, LLAB is your chance to practice your leadership skills that will help you learn and grow into a Second Lieutenant in today's Air Force or Space Force.

Normally, cadets are classified as AS100, AS200, AS300 and AS400 cadets corresponding to the academic course in which they are enrolled. Though this classification system works well for most cadets, it may not apply in all situations. Therefore, it may be more practical to classify and assign cadets according to where they are with respect to Field Training (FT) attendance & commissioning. For this reason, the following objectives must be satisfied to the identified competency level according to the appropriate cadet classification as follows:

**Initial Military Training (IMT)** - Cadets who are part of the GMC but are not scheduled to attend Field Training, normally AS100s

**Field Training Preparation (FTP)** - GMC cadets scheduled to attend FT in the upcoming year, normally AS200, AS250 or AS500 cadets

**Intermediate Cadet Leader (ICL)** - Cadets returning from FT, normally AS300 cadets

**Senior Cadet Leaders (SCL)** - Cadets scheduled to be commissioned in the upcoming year, normally AS400 cadets

Each objective contains the following:

**Requirements**: this is the learning objective *(i.e., Sample of Behavior)*

**References**: supporting materials & locations to find the information pertaining to lesson execution. All AF forms & publications are available at [https://www.e-publishing.af.mil/](https://www.e-publishing.af.mil/)

**Institutional Competency - Sub-competency**: links each objective to the desired learning outcomes for officer candidates as defined by AFI 36-2014, *Precommissioning Programs*

**Instructor**: recommended instructor-level; NOTE: most objectives require a qualified POC instructor who has completed Gateway to POC 1.0 (FT) and Gateway to POC 2.0 (Detachment-based instruction) and is approved by Detachment staff

**Additional Information**: notes and suggestions to consider when planning training
Objective Proficiency Codes:

**Intent:** The proficiency code identifies the desired skill level per the appropriate cadet level. The training should be designed to achieve the desired level of proficiency as stated on each objective. Inherently, a higher-level of training proficiency is required for POC cadets teaching certain critical skills; therefore completion of Gateway to POC 1.0 (FT) and Gateway to POC 2.0 (Detachment-based instruction) is required prior to the start of training. At the discretion of cadre, cadets may be allowed to formally instruct or evaluate cadets without completion of this course.

These proficiency codes are closely related to Bloom’s taxonomy, which is used in Academic Instructor training and the ‘Gateway to POC’ training course. The three levels of Bloom’s most closely related are the Remember, Understand, and Apply levels.

Most of the LLAB lesson objectives are cadet planned, organized, and executed under the supervision of the Detachment Commander and Operations Flight Commander.

8. Effective Followership, Leadership, and Teamwork Skills

8.1.1. Requirements: This objective can be accomplished through mission scenarios, group/team leadership problems, or assigned special projects. As the development of effective followership skills is an evolutionary process, cadets should demonstrate effective followership skills IAW the current academic models. To obtain the P1 proficiency level, cadets should be able to demonstrate strong participation skills and be effective contributors. For P2, cadets should demonstrate a strong understanding of followership skills, anticipate the needs of the leader, and perform their roles based on the leader’s intent. In order to obtain the P3 level of proficiency, cadets should be able to apply all aspects of effective followership, evaluate the followership of team members using the AFROTC Followership Evaluation Form, and foster continued skills growth in subordinates.

8.1.2. References: Current model of followership behavior (AS curriculum), AFROTC Followership Evaluation Form; AFH 1, The Airman Handbook

8.1.3. Institutional Competency - Sub-competency: Fostering Collaborative Relationships - Build Teams and Coalitions

8.1.4. Instructor/Facilitator: P3-qualified Cadet

8.1.5. Additional Information: AFROTC Followership Evaluation Form will be used to evaluate IMT and FTP cadets.

8.2. Sample of Behavior: Demonstrate effective team leadership.

8.2.1. Requirements: This objective can be accomplished through mission scenarios, group/team leadership problems, or assigned special projects. As the development of effective leadership skills is an evolutionary process, cadets should demonstrate effective leadership skills IAW the current academic models (e.g., Full Range Leadership Model, or FRLM). To obtain the P1 proficiency level, cadets should be given an opportunity to apply the basics of team-leading throughout their first year in the program. For P2, cadets should be able to effectively lead small teams towards mission success. To obtain the P3 level of proficiency, cadets should be able to apply all aspects of leadership skills, effectively lead teams, evaluate the performance of team leaders using the AFROTC Field Leadership Evaluation form, and foster continued skills growth in subordinates.

8.2.2. References: Current leadership model (AS curriculum), AFROTC Field Leadership Evaluation form; AFH 1, The Airman Handbook

8.2.3. Institutional Competency - Sub-competency: Fostering Collaborative Relationships - Build Teams and Coalitions

8.2.4. Instructor/Facilitator: P3-qualified Cadet

8.2.5. Additional Information: AFROTC Field Leadership Evaluation form will be used to evaluate IMT and FTP cadets.
8.3. **Sample of Behavior: Demonstrate effective group leadership as the POC-In-Charge.**

8.3.1. **Requirements:** This objective seeks to assess the group leadership skills of project officers in charge of leading, planning, and executing large scale events such as Leadership Laboratory, Physical Training, or special events. ICL cadets should be able to demonstrate effective planning skills, time management, and leadership behaviors in order to obtain P2. To obtain the P3 level of proficiency, SCL cadets should be highly competent, proven project managers and leaders, and be able to effectively evaluate the performance of subordinate POC using the POC-In-Charge Evaluation Form.

8.3.3. **Institutional Competency - Sub-competency:** Fostering Collaborative Relationships - Build Teams and Coalitions

8.3.4. **Instructor/Facilitator:** P3-qualified Cadet

8.3.5. **Additional Information:** POC-In-Charge Evaluation Form will be used to evaluate ICL cadets.

8.4. **Sample of Behavior: Demonstrate the principles of an effective debrief.**

8.4.1. **Requirements:** This objective seeks to instill the concept of mission debrief into all AFROTC training activities with a goal of building a culture of learning through shared experience. At a minimum, FTP cadets must be able to effectively lead a team debrief in order to obtain the P1 proficiency level. P2 level of proficiency requires cadets to debrief training events by facilitating group discussion, recalling points of failure and/or success, and identifying learning points. The P3 level of proficiency requires cadets to fully appreciate the concept of effective debrief and how it ties to future mission success, identify root cause, pinpoint catalysts for success, and capture critical learning points from the activity. Qualified P3 cadets will also be able to effectively evaluate cadet-led debriefs while fostering continued growth in subordinates.

8.4.2. **References:** Gateway to POC 2.0 Lesson Plan

8.4.3. **Institutional Competency - Sub-competency:** Fostering Collaborative Relationships - Build Teams and Coalitions

8.4.4. **Instructor/Facilitator:** P3-qualified Cadet

8.4.5. **Additional Information:** Cadets commonly mistake end-of-scenario feedback for debriefs. However, while feedback is primarily focused on the individual being evaluated, debrief is the team’s opportunity to openly discuss “how” the mission was executed, drill down to the root cause for any issues that occurred during the mission, and focus on areas of learning to help propel the team to future success. The debrief process is deeply rooted in the aviation community, however, the concepts can be applied cross-functionally. The instructor should strive to tie the value of candid and constructive debriefs as a foundational element of continued officer professional development and mission accomplishment.

11. **Expeditionary Skills**

There is no requirement to perform advanced training or performance-based objectives unless supported by OFC. If necessary, performance-based objectives will be trained/taught at FT by experienced instructors. Cadets will be evaluated on their ability to think critically, make decisions in stressful situations, and demonstrate command presence during scenarios, not on their technical abilities to accomplish Airman’s Manual tasks. The following skills are considered core competencies desired of all Second Lieutenants.

11.1. **Sample of Behavior: Differentiate the different types of orders and their uses.**

11.1.1. **Requirements:** Cadets must be able to differentiate the three different types of orders (warning, operation, and fragmentary) and describe the purpose of each in the operational context in order to achieve the Ka knowledge proficiency level. A Kb knowledge level of proficiency requires cadets involved in training activities to possess advanced knowledge and ability to train and supervise FTP cadets.

11.1.2. **References:** AFTTP 3-4, *Airman’s Manual*

11.1.3. **Institutional Competency - Sub-competency:** Embodies Airmen Culture - Warrior Ethos

11.1.4. **Instructor:** P3-qualified Cadet

11.1.5. **Additional Information:** Cadets are most familiar with the Operation Order (OPORD) which details the daily/weekly AFROTC schedule. Changes to an OPORD are often communicated by word of mouth, text, social media/email—in the operational construct, these changes could be implemented using a fragmentary order (FRAGO). Warning orders are the least familiar to the AFROTC construct; however, real-world application can be demonstrated by looking at current events and understanding that when threats emerge or humanitarian crises arise, warning orders (WARNORDs) signal to specific units of forthcoming taskings.

11.2. **Sample of Behavior: Discuss the considerations for operating in secured and/or hostile environments.**

11.2.1. **Requirements:** At the Ka-level, GMC cadets should be able to recall and discuss the different procedures for operating in secured or hostile environments based on the following topics:

11.2.1.1. Entry control points, badging/identification and entry authority

11.2.1.2. Rule of Engagement (ROEs)
11.2.1.3. Antiterrorism and Force Protection Conditions (FPCONs)

11.2.1.4. Operational Security (OPSEC)

A Kb knowledge level of proficiency requires cadets involved in training activities to demonstrate advanced knowledge and ability to train and supervise FTP cadets.

11.2.3. Institutional Competency - Sub-competency: Embodies Airmen Culture - Warrior Ethos

11.2.4. Instructor: P3-qualified Cadet

11.2.5. Additional Information: This lesson is not intended to be a PowerPoint briefing. Ideally, the instructor(s) use creative methods to reinforce the knowledge from the Airman’s Manual in an expeditionary-like environment as the cadets will experience at Field Training. Ensure that cadets understand protecting the DAF’s critical assets to include resources, people, and infrastructure is vital to effective mission accomplishment. Secured perimeters provide standoff protection from threats and only authorized individuals are allowed into areas based on authority granted to them considering a number of critical factors as described in the Airman’s Manual. During elevated threat-levels and FPCONs, additional measures may be adopted. Understanding asset protection and Operational Security (OPSEC) considerations limit exposure by Airman to threats. When deployed or operating in hostile environments, Rules of Engagement (ROE) consider additional operational limits or instructions for use of force in hostile environments.

11.3. Sample of Behavior: Utilize basic TTPs to respond to attacks or threats.

11.3.1. Requirements: At the P1-level, GMC cadets should be to demonstrate responding to attacks or threats based on the following topics:

11.3.1.1. Sign/Countersign

11.3.5. **Additional Information:** Sign/countersign is an infrequent skill that will be required during operational and exercise evaluations on active duty. This lesson is not intended to be a PowerPoint briefing. Ideally, the instructor(s) use creative methods to reinforce the knowledge from the Airman’s Manual in an expeditionary-like environment as the cadets will experience at Field Training.

11.4. **Sample of Behavior:** Respond to UXOs and IEDs.

11.4.1. **Requirements:** At the P1-level, GMC cadets should be able to demonstrate responding to unexploded ordinance (UXOs) and Improvised Explosive Device (IEDs) on the following topics:

Independent, Critical Thinking

Effective Follower

Survivor

Active

Dependent, Uncritical Thinking

Sheep

Yes Person
The critical thinking ability refers to the follower's ability or willingness to independently analyze his/her supervisor's decisions. The independent, critical thinker thinks through ideas/concepts, speaks up with ideas and communicates their position using logical, positive, professional persuasion techniques. The dependent, uncritical thinker need to be told what to do, regardless of the task at hand.

The activity level is the follower's level of involvement (active or passive) in completing an assigned task (i.e., active - showing initiative and going above and beyond the minimum to improve the process vs passive - doing exactly what I'm told).

Alienated Follower: festering wounds in the organization that are happy to criticize, but never offer constructive support or viable solutions (passive, critical).

Sheep: do not play an active role and simply comply with any order or directive given to them (passive, uncritical).

Yes Person: active followers who readily carry out orders uncritically. These followers can be dangerous if the orders contradict societal standards of behavior or organization policy (active, uncritical).

Effective Follower: active role players, but not yes people. They reflect on organizational goals and are not hesitant to bring their concerns to their leaders (active, critical).

Survivor: rarely committed to work/group goals but have learned to not make waves. Mediocre performers often jam up the system.

Provide first-year cadets an informative and motivational program designed to recruit, retain, and familiarize cadets with the Air Force (or Space Force) way of life and foster leadership, followership, teamwork, and esprit de corps.

1.1. Provide cadets scheduled to attend FT with the mental and physical skills needed to succeed in the AFROTC FT environment.

1.2. Provide cadets returning from FT sufficient opportunities to demonstrate and develop the leadership and management skills needed to successfully function as active duty officers.

1.3. Provide cadets to be commissioned additional opportunities to demonstrate and develop the leadership and management skills needed to successfully function as an active duty officer and to adequately prepare them to transition from the AFROTC environment to active duty.
